OF EMERGENCY SERVICES

SITUATION SUMMARY

Saddle Fire, Trinity County

Location of incident: 4 miles Northwest of Hyampom, Shasta-Trinity Forest

Jurisdiction: Federal DPA, FRA

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of 06/14/15 at 1729 hours:

- 1,490 acres, 40% contained
- NORCAL Team 2 in Command
- Fire continues to impact outlying areas of Hyampom.
- Structure threat continues in outlying areas of Hyampom.
- All CAL FIRE ground resources have been released.
- No anticipated Containment date.

Evacuations/Shelters

- Per the Cal OES Fire duty Officer (FDO), 140 single residences threatened.
- 100 homes under an advisory evacuation order with no exact area of impact three (3) homes voluntarily evacuated.
- Mandatory evacuations along County Road 311, also known as the Lower South Fork Road, north of Big Slide Campground to Manzanita Ranch - affects one (1) home.
- Evacuations have been complete for the outlying areas of Hyampom. Town of Hyampom is under a 2 hour notification.
- Per the Cal OES Law Duty Officer, advisory evacuations and potential road closures in the affected area will be handled by the U.S. Forrest Service.
- The location of the Red Cross Evacuation Center is the Hayfork High School at 231 Oak Ave Hayfork, CA 96041. Per the California Department of Social Services (CDSS): Overnight Shelter population: 0

SITUATION SUMMARY

Saddle Fire, Trinity County

Utilities

- Per the California Utilities Emergency Association (CUEA) there is no threat presently to the grid or transmission service.
- CUEA, advises that they deployed Cell on Wheels (COW) and Cell on Light Truck (COLT) to base camp for emergency communications support.
- The Cal OES Telecommunications Duty Officer (TDO) is awaiting a request for a Mobile Interoperability Gateway Unit (MIGU) to support a Spike Camp near the town of Hyampom. The request will be made through North Operations Coordination Center to the California State Warning Center (CSWC). The need is for telephone, data, and a VHF Radio, for a Radio Operator (RADO) position at the Spike Camp.
- Per the Cal OES TDO, Cal OES Auxiliary Communications Service (ACS) staff are aware of a possible deployment and awaiting a Mission Number once the request and approval is made.
- Per the Cal OES FDO, power transmission lines in the fire have been re-energized.

Health and Welfare

- Per the California Department of Social Services (CDSS):
 - There are currently no community care licensed facilities impacted by this fire.
 - CDSS will continue to monitor impacts to community care licensing facilities.

Deployments

- None.

There are no requests for assistance or unmet needs.

Cal OES Duty Officers are monitoring the situation and will provide updates as they become available.

SITUATION SUMMARY

NATIONAL WEATHER SERVICE

PHOENIX, AZ FORECAST OFFICE

WEATHER BRIEFING

Issued: Sunday, June 14, 2015 1 pm MST/PDT
Valid: Tuesday, June 16th through Friday, June 19th

Synopsis & Timing:

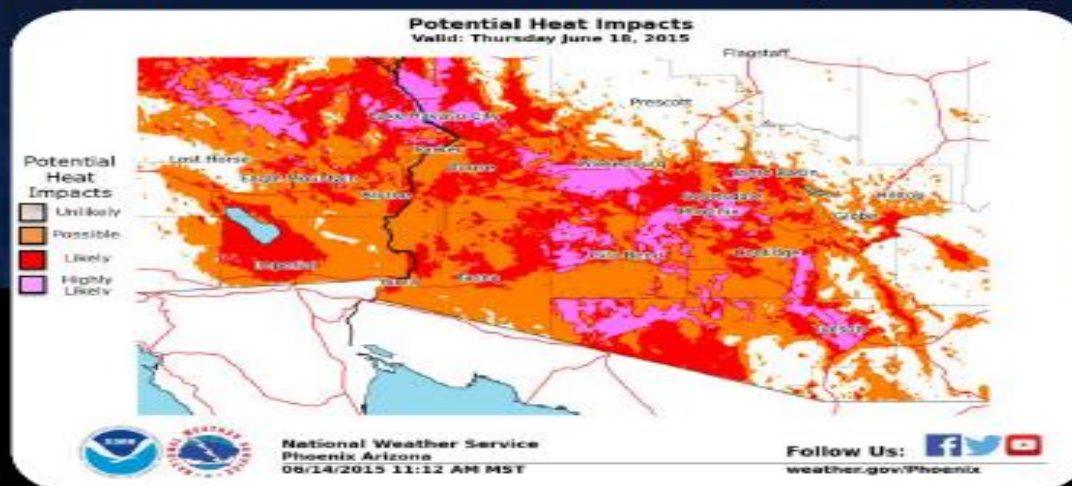

The first prolonged period of very hot temperatures will affect the region this week. Tuesday through Friday are expected to be the hottest days, with each day followed by warm overnight conditions. **Excessive Heat Watch** is now in effect.

Hazards:

- Very hot daytime temperatures ranging from 110 to 115 degrees for many lower desert locations.

Impacts:

- Preparatory actions should begin now given as this is the first significant heat event of the summer with potential negative health impacts.
- Emergency treatment for heat related illness may be highly likely.

Forecaster Confidence: HIGH for well above average temperatures

WEATHER

WEATHER SYNOPSIS BY REGION:

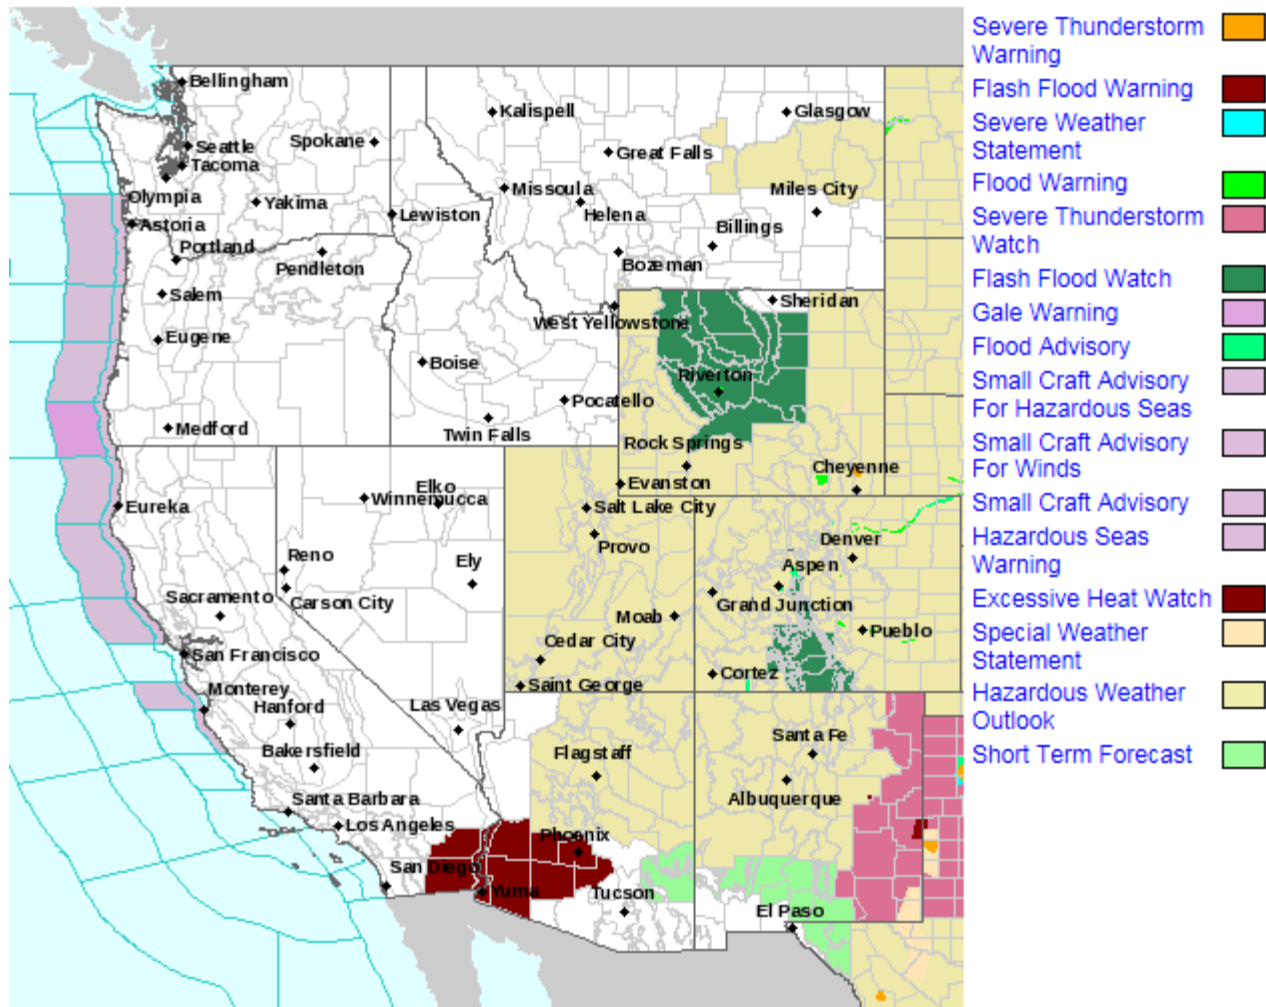

NORTHERN CALIFORNIA

Westerly flow over Northern California will be in place much of the week as we remain between a low off the British Columbia Coast and a high centered off Northern Baja. There will be a bit of moisture and instability in the far northern areas today and Monday as a very weak trough passes by in that westerly flow. This may lead to a few somewhat dry afternoon and evening thunderstorms today and Monday in the northern areas; mainly Siskiyou, Modoc, and Lassen Counties. Little change in the overall weather pattern is expected the rest of the work week. There may even be another chance of afternoon and evening thunderstorms Thursday and Friday. There is a lot of uncertainty about what pattern will be in place for the weekend, but at the moment, a continuation of the current pattern seems likely. Temperatures will remain above seasonal norms inland, with warmest valley areas likely to be 100-105 degrees (10-15 degrees above normal there). Winds will be westerly or northerly over the seven day period. Winds will be relatively light or seasonably gusty. This could include some moderate westerly winds with gusts of 20-35 mph east of the Cascade/Sierra Crest.

SOUTHERN CALIFORNIA

Temperatures will warm a few degrees away from the coast each day through Tuesday as high pressure to the southwest expands into California. Maximum temperatures will be in the upper 70s and 80s across the mountains and coastal valleys, with 90s to 102 degrees in the inland valleys today. Temperatures will become 5 to 10 degrees above normal by Tuesday away from the coast. Minimum humidity will be between 12% to 25% above and inland from the marine layer today and then drop into the single digits and teens starting Monday. The marine layer is currently 2,000 feet deep across Central California and 3,000 feet deep across Southern California. The marine layer will shrink considerably the next couple days and morning low clouds and fog will only move over the coastal areas by Tuesday. There will be little change in the weather Wednesday through the end of next week as strong high pressure remains off the Southern California Coast. This high pressure will move inland next weekend bringing well above normal temperatures.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal OES Missions

New Cal OES Missions

- **2015-LAW-13599, 06/14/15 at 1749 hours,** Siskiyou County Sheriff's Department is requesting SAR resources to assist in the search for a 54 y/o male that went fishing and did not return. Missing person (MP) is diabetic and has had recent surgery. The Cal OES Law Duty Officer (LDO) is coordinating resources. **Update 1822 hours:** Per LDO, MP has been located. All resource requests have been cancelled. **Mission Closed.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
